Integrated development environment for AI services and low-cost compact board

R-Car V4H Sparrow Hawk

Core benefits

- **Ready to run OSS based software and start development**
  - Get started instantly with OSS based SW supporting Yocto & Debian, available FoC (Free Of Charge) with just Click through agreement
- **Unleash 30TOPS AI power in a compact board design**
  - Experience up to 30 TOPS range AI performance on a compact board (146 × 90 mm) and compatible with industry-standard accessories.
- **Affordable and accessible hardware for everyone**
  - Low-cost board available through global distributors and High-volume production ensuring stable supply and large inventory
